Statewide **Healthcare Innovation** Plan

Health IT Update

August 2016

**Overview of
Health Information Technology Plan**

Health IT Goals

- 2 of the 7 SHIP goals are Health IT focused
  - **Goal 2** – Improve care coordination through the use of electronic health records (EHRs) and health data connections among PCMHs and across the medical neighborhood.
  - **Goal 5** – Build a statewide data analytics system that tracks progress on selected quality measures at the individual patient level, regional level, and statewide.

Our Health IT Contractors

- **Idaho Health Data Exchange (IHDE)** – IHDE is our health information exchange partner.

- **HealthTech Solutions** – HealthTech is our data analytics partner. They are establishing a connection with IHDE and are responsible for developing and providing clinical quality measure reporting.

SHIP Health IT Goals
End of Grant Year Targets

Clinical Quality Measures	Clinics Reporting for Year 1 (By Jan 31, 2017)	Clinics Reporting for Year 2 (By Jan 31, 2018)	Clinics Reporting for Year 3 (By Jan 31, 2019)
Measures 1-4	55 Clinics	110 Clinics	165 Clinics
Measures 5-10	N/A	55 Clinics*	110 Clinics**
Measures 11-16	N/A	N/A	55 Clinics***

* Optional for Cohort 2 clinics but required for Cohort 1 clinics

** Optional for Cohort 3 clinics but required for Cohort 1 & 2 clinics

*** Optional for Cohort 2 and 3 clinics but required for Cohort 1 clinics

This clarification of goals / targets needs to be approved by CMMI

Anticipated Health IT Timelines

(IHDE Connections and CQM Reporting timelines tied to the end of the grant year – Jan. 31st)

June	July	August	September	October	November	December	January	New Grant Yr.

HIT Workgroup begins coordination with CQM Workgroup for Year 2 Measures

Continued Efforts to Refine Year 2 Measures

Use Cases Subcommittee Meets

Sprint 1 with IHDE establishing connections

Sprint 2 with IHDE establishing connections

First CQM Reports Released

Baselines established after initial release

Statewide **Healthcare Innovation** Plan

Recent Activities and Next Steps

Clinic IHDE Readiness Assessment Results

Privacy or Other Concerns - 8

BH Filtering Challenge - 4

Pending EMR Conversion - 7

Ready for IHDE Connection - 35

EMR Product Barrier - 1

Legend:
- Ready for IHDE Connection - 35
- EMR Product Barrier - 1
- Pending EMR Conversion - 7
- BH Filtering Challenge - 4
- Privacy or Other Concerns - 8

HIT Workgroup Activities

- HIT Workgroup
  - Discussed lessons learned to be applied to Cohort 2 application process

- Data Element Mapping Subcommittee
  - Redefined first 4 measures
  - Currently discussing Year 2 measures
  - Refining patient attribution methodology

- Use Cases Subcommittee
  - Met to define how specific users will use the data analytics tool from HealthTech

Idaho Health Data Exchange
Recent Activities

- Conducted readiness assessment calls with all 55 clinics

- Began building clinic connections for first sprint (July – September)

- Working through connection challenges

HealthTech Solutions Recent Activities

- Hosting services have been established within a dedicated Virtual Private Cloud within Amazon Web Services

- HTS established four environments for the analytics system: Production, Training, Development, and Test

- Currently developing the measure calculation engine for first 4 measures based on sample patient CCD files and measure spec sheets
